With regard to the claim to take "Dick Turpin" all we can 'say is that \$5 50 from each man, I disallow it, and of course with regard to the expense of the Annamese I cannot say much about it. Now, the into stress of weather again, and had to put into Harmston and his men, but most of all, "Black | Tourane. I have no doubt there again the same and the defects which were spoken of by Mr. Boyd and Captain Burnle made them believe they were in danger, Then they went in there, and as we know there were no means there for repairing the vessel, and after a shirt delay they put out, and ugain had to put hack. It is represented that on the second occasion the weather was fine, but I find in the official log that an entry is made to the effect that there was a heavy sea and a strong wind, and that they put back as the wind was straight about and the sea increasing. I have little doubt that if the vessel had been in a perfectly seaworthy condition, they would not have had to put back. However, they had to do so, and then comes the demand for a survey, which was acceded to. Of course, they had got some distance on their way, halfway between Singapore and Hongkong, and no. doubt the inquiry was made with the object of seeing if they could safely proceed as far as Flongkong. There is no finding at all by the Board that the demand for a survey was vexatious or frivolous, and we know as regards the plaintiffs they were backed in their opinion by the third and fourth engineers, their superlor it could be helped, and he would himself go to offi; Fig. who were also, parties to the representation of the necessity for an inquiry before the vessel proceeded further. There are men-take the men in this case-who engaged in England under a solemn contract, which is hedged round with all sorts of safeguards by legislation for their protection, to go on a voyage to a distant part of the world like China and Japan and to go back and be discharged in England, provided the engagement is not more than two years. And although in some cases with native crews like this the men may not have contracts like this in England have in view the \$14,002 37. support of wives and children at home who are entitled to part of their wages. In the case of the man Campbell we know that authority had cases similar orders are made in respect of wives and children. It would be a dreadful thing if for an act of insubordination a man who had entered into a contract of this sort should be cast adrift as a vagrant in the streets of Hongkong without having the means of enforcing any further the rights he is entitled to under the contract. In this very case, Captain Hastings cald his to son for ordering the discharge of the | R. Sassoon having resigned, Mr. E. S. These men would have found themselves on emerging from prison deprived of all their rights under the contract, and except such small balances of their wages as are admitted to be due to them by the captain in their absence the men would have been cast upon the streets of Hongkong without the means of subsistence. That does not appear to me to respect the rights of the men under their contract. The powers of nunishment and discharge must be very closely looked to by Consuls, marine magistrates, and anyone clee who may have to deal with these things. If not it may lead to great injustice. The order of discharge in this case is quite without any meaning, any effective meaning at all, in my opinion. Now I come to what should be done in this case and in what manner it should be put before the Registrar. It is very necessary indeed that in connection with those men who are claiming compensation, their wages, and a return passage to England, they do not get any undue advantage out of the position in which they are placed, and the Registrar must be very careful to see that any man who is allowed the expenses of returning to Englandmust have a bone fide intention of returning. It appears to me that they are entitled to be sent three Celestials. They have not made up their back. Of course those who don't want to go back to England won't be so entitled. They will be entitled to wages up to the time they get other employment and they will be entitled to subsistence up to the date they would arrive in England or for a fair time during which they might obtainemployment. Our electric light company has been in rouble lately.

A few days ago some thieves tried a piece of the primary wire about 2 a.m. with the full current turned on. They managed to cut it but when they found that the thing was spitting fire like a real live celestial dragon, they severely lieft it slone and cleared. But presently a green duffer came along of a scientific turn of mind and took the thing up to ir vestigate, and then he dropped it and dropped himslf also. Then another fellow wanted to investigate him. probably to see if he had left his watch at home. He dropped too, and two more after him. At last they feiched the manager out of bed and he let them all off-nobody dead.

> SHE WILL NEVER TELL THE SECRET.

Here is a piece of glass; it is cut into facets; it is pure white glass: it is fit to be one of the pendants hanging from a chandelier in a millionaire's drawing room : it is about as big as a hazelnut. How it sparkice as I hold it up between my thumb and finger! Yet it is merely glass and scaroely worth a shilling .- oh! if I only knew how to turn it into a diamond !- a blue or a rose diamond! Why, there are thousands who would give all their health, and then mortgage their souls, to buy it of me. Then good bye to work and care, for I should be rich beyond the dreams of avarice. Who will show me the process? Alse! nobody.: Who will tell me how to transmute tin or copper into shining gold? Alasi nobody. A Where is the link between them? We yearn to know. Thousands of men have burned out life's candle in the effort to ascertain. How vainly! In the bosom of her hills Nature hides that secret, as she hides the secret of man's destiny under mountains of ashes and crumbling bones. On our bended knees we beg her to break one unbroken seel, to speak one unspoken word. She only regards us with contemptuous pity

and remains for ever dumb. Yet, is there no other mystery, just as deep, that comes home to your thoughts in a way to frighten you? Think a minute, man. What builds and repairs the house you live in, that is, your body? What changes a loaf of bread into nerves, flesh, skin and musolo?

What does this mean? as when a lady says of her daughter. "She took food but got no strength from On Junuary 31st, during an election in the it." It means that in her case the base products of English? Simply that the process of digestion interrupted, a process stranger than the transmutation of copper into gold would be.

The lady proceeds to say that her daughter was seventeen years of age when she was taken ill. This is the age of hope, brightness, vigour, and enjoyment, and, by rights, illness ought to be unknown to it Still; she lost her strength and languished as though stricken by time. She grew tired and weak, and could keep nothing on her stomsch. She would, so her mother says, often throw up a quantity of green fluid as bitter as gall. This was bile, the fluid which in health nature takes from the blood and sends to the bowels to aid digestion there. The liver falling to do this work, the bile remains in the blood, and is returned to the stomach, which rejects it as a poison. That is a part of it. The rest saturates the body, producing headache, nervous depression and debility, bad dreams, cold hands and feet, furred tongue, yellow eyes and skin, dissinces, bad taste in the mouth, and the gulping up of a nauscating gas and alime, with loss of appetite and ambition for labour or of the state of affire. No revolution is impend- pleasure. This state of things is often called a billious ettack, and is part of the results and symptoms of indigestion and dyspepsis. This affected life, to young or old, is one constant misery. It is the copper, the

glass; not the gold or the diamond. "This was my daughter's condition," adds her mother, " for nearly two years. She took various medicines, and was treated by a physician, but with out benefit. She grew dally weaker, and with her decline our anxiety increased. We knew not what to do, nor where to look for help.

"It was at this worrying time that we first board of the preparation called Mother Seigel's Syrup, and | to. read the statements of different persons who said they had derived great good from it. I have since recommended Seigel's Syrup to many friends and neighbours. The facts in my daughter's case are well known to Mr. Rogers and to others in the vicinity. I append my initials and address. R. J. M., Slanemore, near Mullinger, Ireland."

Mrs Rogers certifies as follows :--" I temember the lady shove named informing me of the ours of her daughter by taking Beigel's Syrup, and can vouch for the accuracy of the statement." RICHARD G. HOGERS,

"Mullinger, June 4, 1891." To recur to our illustration, we may say that the remedy employed assisted nature to recome her work of producing the most precious of all her jewels—health and happiness.—Advi.

THE PROSECUTION OF THE -- OPIUM FARMER.

BEG to express through your columns my deep regret that I should in a hasty moment, in consequence of my not being able to read or understand Chinese accounts. have commenced a prosecution against Mr. KOH CHENG SEAN, the chief manager of the late Opium Farm, with reference to the funds of the CHEANG TEK KONG-SEE. A complete investigation into the matter and a careful examination of the books and accounts have thoroughly convinced me that my suspicions were wholly groundless, and that there has been nothing whatever in Mr. KOH CHENG SEAN'S management of the business of the OPIUM FARM that is in any way ropeshensible; and further, that he has all along been doing his best, honestly and faithfully, for the benefit of the CHEANG TEK KONG SEE,

I should be obliged if you would insert this letter in your correspondence column once, and afterwards as an advertisement for the period of one month, as I am anxious to undo as far as possible any injury I may have, through my basty and unjustifiable action, inflicted upon Me. Kok Cheng Sean.

Yours truly.

THE MIKE CO'L MINING COMPANY.

THE MIIKE COAL is a BITUMINOUS COAL of dark reddish colour. For steam purposes it has been pronounced to be the best, and the most economical of all the Japanese Coals. Its export is increasing yearly, and the opinions expressed by several of the largest regular

consumers are in testimony of the excellent qualities of this coal. Attention is called to the following advantages, to Ships' Owners and Captains, who coal their bunkers direct from the Undersigned :--

FRESHNESS of the coal, UNIFORMITY of quality. FREEDOM from impurities. Supply in any quantity on shortest notice. Oulck despatch.

FINEST HOTEL IN THE EAST. (Under the distinguished patronage of the Imperial Household.)

THIS fine hotel is situated within five minutes' drive of the terminus of the Yokohama-Tokyo Railway and is in near proximity to the Imperial Palace, the Parliament House and the

Chief Public Offices. There are no inside rooms, thus securing well lighted, ventilated and cheerful accommodations. The Culsine cannot be surpassed, and the aim of the management is to provide for the comfort and pleasure of the guests. The attractions of Tokio are countless, and the religious and floral festivals being of daily occurrence are to be seen at their best and on a grander scale than in any other portion of Japan. All the noted actors, wrestlers, and jugglers make the capital their head-quarters.
